FOOD TECHNOLOGY INSTITUTES (ITAI_S)

DEDICATED TO COMPETITIVENESS AND INNOVATION

Our institutes bring together recognised expertise in all food and agro-industry sectors.

Working closely with companies, and SMEs in particular, our specialists and technical resources allow us to provide the solutions that best suit their needs.

With 1,200 employees, our partner centres, and our national, European, and global networks, together we are building the food industry of tomorrow.

RESPONSIBLE FOR FOOD

ACTIA

THE LINK

BETWEEN PUBLIC RESEARCH & COMPANIES

Through its role incentivising, coordinating, and communicating, ACTIA boosts and catalyses this unique network for development and technology transfer, creating synergies from the complementarity and know-how of each member.

Always attentive to changes in the market and consumer needs, ACTIA is fully active in its double role suggesting and coordinating research activities (joint technological units, joint technological networks, and national and European programmes).
